"The Coin Machines Merry-Go-'Round"

WPB NEW AMENDMENT ON MFG OF PARTS

The following is the official amendment of L-21 issued October 16, 1944 by the War Production Board, repeated verbatim here is the part which refers to this industry specifically.

"(b) Restrictions on production. (1) No person shall commercially make or assemble any automatic phonograph or any amusement or gaming machine from either new parts or old parts. This does not prohibit the repair or renovation of a used automatic phonograph or a used amusement or gaming machine, or the manufacture and transfer of parts for repair and replacement purposes.

"(2) No person shall commercially make, assemble or sell any part for an automatic phonograph or an amusement or gaming machine if he knows or has reason to believe that that part will be used for any purpose other than the repair or renovation of a used automatic phonograph, or a used amusement or gaming machine."

There is therefore nothing in this amendment of Limitation Order 21 which indicates, even by the widest stretch of the imagination, that there is a possibility new machines will once again be manufactured. As far as the Spot Authorization Plan is concerned, manufacturers can make appeals - but manufacturers in No. 1 labor areas are not going to appeal - as yet.

Even with parts now once again allowed to be manufactured (technically) and as contained in this amendment only for "the repair and renovation of USED machines", when, as and if the manufacturers can obtain raw materials to make such parts, the actual manufacture of parts is a long way off.

In the first place most of the large factories have removed much of their former machinery from their floors and have replaced this with machinery for making war materials instead. These manufacturers will therefore have to make application to WPB under Form PR-24 to obtain machinery for making former parts.

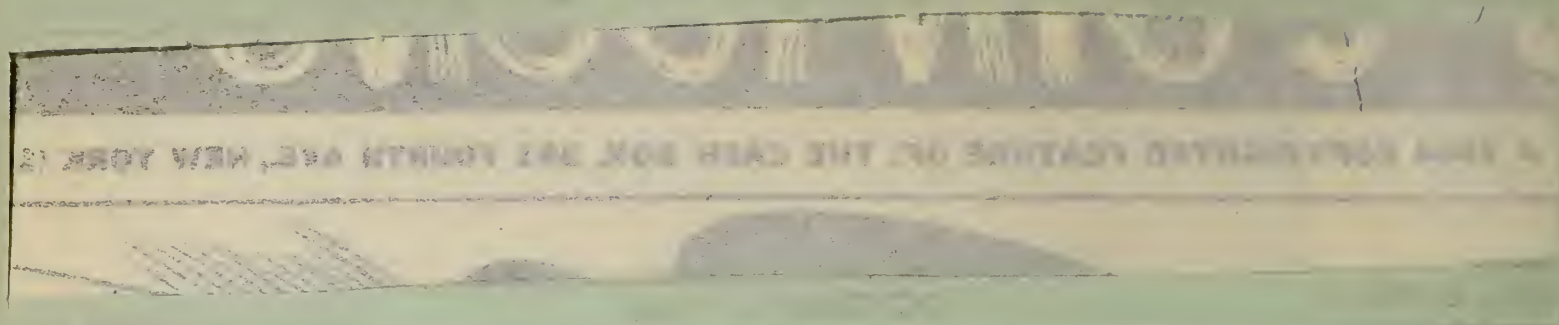

If they can gain the approval of WPB under Form PR-24 to obtain machinery - they must then file again under Form CMP-4B for the raw materials they will need with which to make such parts. In addition, under this form, and for each and every part they ask WPB's permission to make, they must not only fully describe the materials which formulate this part in every detail, but also explain the importance of this part to the entire machine and include a technical drawing of the part itself.

In making application for the raw materials (with complete details and sketch) for parts under Form CMP-4B, they must also state just how much materials they believe they will need for each quarter yearly period. If accepted under CMP-4B, the manufacturer is then sent the "Z" form for further application. All this is then first taken under consideration by the War Production Board by to releasing the raw materials necessary and granting permission for the manufacture of parts under the newly amended L-21.

Remember - THIS DOES NOT MEAN that any parts for NEW machines can be manufactured. IT DOES NOT EVEN INFER, in any fashion whatsoever, the possibility of NEW machines being manufactured. IT DOES NOT EVEN STATE (under the newly amended Limitation Order 21) THAT THE MATERIALS NECESSARY TO MAKE PARTS WILL BE GRANTED TO THE MANUFACTURERS. And certainly those manufacturers who will need machinery of various kinds to start punching out parts have a unique problem here alone. It is certainly doubtful as to whether WPB will allow them to take war material machinery off their floors and replace this highly essential machinery with other machinery to make coin machines parts.

There is therefore absolutely no need for anyone to become excited over this amendment as regards the possibility of manufacture starting once again. Most of the leading manufacturers have war contracts that will carry them far into 1945 anyway. Even after V-E day, these manufacturers state, it will take them 6 months to get back into former coin machines production.

YOU CAN SAFELY CONTINUE TO BUY AND SELL USED EQUIPMENT FOR A LONG TIME TO COME.

THE NEED GROWS GREATER FOR...**A PUBLIC RELATIONS BUREAU**

Without any doubt, after V-E day, there will be a greater need than ever before for a Public Relations Bureau for this coin operated machines industry. For many, many months The Cash Box has urged the creation of just such a bureau to help bring better understanding between the general public, the allied industries, public officials and all others with whom this industry already does, and eventually will, have to come in contact.

The effect of Public Relations Bureaus in other industries is today most apparent. As was noted when the Federal government placed a 30% tax against the cabarets of the nation, the work of the public relations bureau of that industry reduced this tax to 20%, putting that industry on the same level with the nation's motion picture theatres.

As all will agree, the neighborhood motion picture theatre is surely more important to the nation at large as a medium for building greater morale, for dispensing important national news, for educational factors, as well as for its general entertainment value, than is the cabaret to the average American citizen. But the cabarets, because their long foreseen and intelligent move thru close cooperation with each other, were able, by using this Public Relations Bureau so effectively, to actually bring their industry on a par with the movie houses; at least as far as the Federal government is concerned.

This is but one pert example of the power of public relations work. Thruout this entire industry are men who can point to the need for such a bureau. Territories now closed would probably never have closed were there such a bureau in existence to carefully and intelligently explain to the public, right thru the very same crusading press that probably caused the territory to close, why coin operated equipment was not the ogre nor the moral leper which certain blue-nosed crusaders, publicity seeking politicians or circulation seeking newspapers tried to make it appear.

After the war there will again arise a great many problems for this industry. Those who can foresee some of these problems are already arranging to employ returned service men. There is no doubt that many such service men will open a great many closed types of locations and territories to this industry that no coinman can, or even would dare try, to open. Aided by good and intelligent public relations effort, such returning service men who will enter this industry, can do even more than just open such territory. They can keep that territory open. They can make that territory a booster, instead of a knocker for coin operated equipment. Only a Public Relations Bureau, staffed by men of high caliber, can help these men put this over.

There are today men engaged in this industry who should be employed in a Public Relations Bureau. These men are well known to this trade. They are men who have won much commendation for their work in their present positions. It is up to all this trade to get these men to work now for this industry as a whole by containing them in a Public Relations Bureau in this field.

A Public Relations Bureau would be of tremendous help not only to operators, jobbers and distributors of this industry, but to the manufacturers as well. This bureau can be maintained by a small and hidden contribution which would never even be noted by coinmen. Such contribution would originate at the source of sales. Each and every machine manufactured will place aside a very small sum to go into a general fund for a Public Relations Bureau. In this way everyone in this industry will be sharing equally in maintaining this very important bureau. By adding to the wholesale price of the average machine even 1% of the net and passing this down the line, a Public Relations Bureau of great power, staffed by intelligent, leading national figures can be created and made to work for all this business.

The Cash Box again appeals to the men in this industry to come to the fore to help create such a Public Relations Bureau. One method for making this Bureau become an actuality is already mentioned here. There may be others with even better

1914

"The Coin Machines Merry-Go-Round"

ideas in this direction. But the value of such a bureau cannot be disputed and is already agreed to by operators of two machines, as well as the largest operators, wholesalers and manufacturers. Surely all in this industry will admit that a Public Relations Bureau is of tremendous importance for maintaining and for helping to make this a grander, greater, more respected business.

A NATIONAL TAX COUNCIL

There is no need at this time for The Cash Box to discuss the efforts that it has already put forth urging this industry to create a National Tax Council with branches thruout the nation. Every coinman in this country knows what taxation means. Even in those communities where the general belief was that taxes would never harry this trade - taxation has today become fact.

There is also no doubt that when the post-war era swings into full being that taxation will become an even greater problem. Tho many look forward with much hope that the Federal and local governments will cut off surplus present taxation - all must realize that the tremendous debt incurred because of this war will have to be paid sometime, and the Federal government is already arranging for its payment over a 100 year period. That means taxation will go on for the lifetime of all now engaged in this business, as well as for the lifetimes of their children and their children's children.

Public works programs are also being discussed by almost every progressive community in the nation, as one of the many general public efforts to help take care of the 10,000,000 service men on their return to civilian life. This, too, requires money. A great deal of money. It means that local taxation must be continued, and possibly even increased, to take care of such expenditure. It means that local coin machines taxes will remain and may even have to be increased to obtain the necessary revenue.

But all this is only a beginning. With the opening of territory in New Jersey, one of the leading newspapers in that state proposed that all communities could best control the machines that will eventually be placed - by a heavy license fee. This license was suggested at a high figure so that not too many machines would flood the territory, and also that each community would benefit from the fact that the highest court in this state saw fit to legalize these machines.

Here, again, is an example of what the men in this industry will have to contend with. There is also no doubt that as machines are placed about during the post-war period, and it is generally expected that there will be more machines working on locations thruout the nation than ever before in the history of this industry, that more and still more taxes will come into being, because the eagle eyes of the tax makers will not pass up such a great display, and especially such a grand opportunity, to obtain further revenue.

The Cash Box can but once again appeal to this industry to attempt, by meetings of the men in each community, to thereby eventually create a National Tax Council. Coinmen should work toward that end where a National Tax Council with proper data, complete records, precedents, legal aid, and all other necessary matter will be ready to serve them in any part of the nation when the need arises. Those who lackadaisically pass this up now - will sorrow over it later - as have many communities of coinmen all over the country.

When the tax maker strikes suddenly in some community, coinmen become frantic and rush helter-skelter seeking for records, for data, for former rulings, for precedents, for decisions, for copies of tax bills, etc., etc., etc., and there is no complete single national source where such data is recorded and filed for the benefit of this industry. There is no group of trained tax men who can instantly be rushed to such a territory to give advice, to work with, and to explain to legislators and other officials the correct status of taxation in and for this industry. In fact, there is no one in this whole business who can help, because there is no National Tax Council specifically created to do this job.

A CREDIT BUREAU

Since its very inception The Cash Box has urged the creation of a National Coin Machines Credit Bureau. This is a great necessity. This is the one need that can place this industry on a par with other nationally recognized businesses. A druggist need but present a simple statement, and regardless of his character, he is granted open account shipments. So can even the smallest grocer and candy store proprietor receive credit from leading, nationally known firms. But, the average coinman who may be many, many times more financially acceptable, does not receive due credit consideration.

The average coinman is a unit of a great and vast system of private enterprise backed and prospering by use of credit facilities. There is in existence today a

"The Coin Machines Merry-Go-Round"

sort of credit arrangement for certain types of equipment. Coinmen in these fields can receive a certain amount of credit, on a loan basis, paying loan interest. But this is only made possible by the advance loan of the finance company stepping into the picture in his behalf. Only a few, a very, very few, receive open account shipment in any large financial figure in this industry without interest bearing payment.

As the post-war period comes into being - once again, with the entrance of new blood (most of which will be financed by the wholesalers) and with the fact that the average operator will need more and still more equipment, there will also come need for greater and more lenient credit facilities. This will mean that someone, somewhere, somehow, will have to be able to give the sort of credit information for those engaged in this industry, aside from the regular financial statements, which will make possible credit arrangements for the average coinman, without soaking him for the privilege.

Open a small drug store tomorrow. Walk into the neighborhood bank. Note the courtesy and attention you receive. Buy a route of 500 extremely profitable machines tomorrow, earning over 100 times what this little druggist earns, walk into the same bank - and fight like the very devil to get him to okay some paper - at a tremendous profit to himself. It takes years and years and a tremendous bank balance for the average coinman to win over his banker. Why? Because there is no Credit Bureau in this industry that can come to the front for this man and help him to better establish himself.

The highly concentrated condition of this industry today makes possible the quick creation of a Credit Bureau now. When the post-war period opens and new blood starts flooding into the business, creating such a bureau, will be a big, unwieldy and difficult task. This is, therefore, the time for leaders of this industry to come together (for their own benefit) to arrange for creation of a Credit Bureau which will help them immeasurably in the future.

BETTER BUSINESS BUREAU

Surely all will agree (for The Cash Box received hundreds of letters in this regard and still receives them constantly) that a Coin Machines Better Business Bureau is an outstanding necessity for this industry. But, as yet, not even so much as an inkling that any group of coinmen have come together to discuss the possibility for a Better Business Bureau for this industry.

Great howls arise at regular (and today ever increasing) intervals regarding poor business practise on the part of some firm, or some individual. Only some sort of a bureau could possibly arrange a cure for such a condition. Poor machines are deliberately, it seems, being shipped buyers here and there thruout the nation. There is no agency, no bureau, no firm, to which the buyer can appeal. Nowhere - but to the man who sold him, and to vent his spleen in writing to that man, to the publications and to everyone else he knows in the trade, and then re-sell these same machines to someone else - and let the cycle start all over again.

But were there a Better Business Bureau in existence in this industry, patterned after the Better Business Bureaus in existence in all communities thruout the nation, this buyer would then have a definite place to appeal.

It is a known fact that certain territories in the nation are being bypassed today by many large buyers. Whole territories have been injured because one or two men, men who are on the outer fringe of this industry, curb-stone brokers, trying to grab what they can during this wartime period, have hurt these territories by shipping junk to such good buyers. It is sad, but true, that human beings continue to judge all by one. Were a Better Business Bureau in existence in this industry, with some sort of branch in such territory, there is no doubt that such cases would have instantly been settled and all others wouldn't be hurt by the evil done by a few.

From much more than only one standpoint a Better Business Bureau is important to the members of this trade. Not only to settle whatever friction might exist within the industry itself - but to help arrange for better understanding with those businesses outside, or allied to this industry, who do business with the men in this field. Only a Better Business Bureau is in position to discuss with such outside factors the reasons why they should give more careful consideration to this trade.

A Better Business Bureau has a great many jobs it can do to help this field. All these jobs are important. And all of great need to this industry today, and especially for the post-war period.

The Cash Box hopes that there are men in this industry who will get together, if even just as a local idea, to create the first, small Better Business Bureau. And will follow this by urging others in other territories to also create such Better Business Bureaus, until eventually this will spread and will become nationally acceptable to all this industry.

"Talking Out Loud"

BUYING SPREE MAY SET NEW SALES MARK

All Types Of Machines Sales Going At Top Speed. Attribute Demand To Need For Covering Post-War Locations. Much New Blood Already Entering Field. Route Buying Leads.

NEW YORK—Perhaps the most phenomenal action this Fall season is the return to sudden and greater buying on the used machines market. All types of machines are moving at great speed in a buying spree which many believe will set new high records for used machine sales.

Many attribute this present buying spree to the fact that coinmen thruout the country have suddenly come to the realization that now is the time to cover as many locations as possible for post-war. These men claim that some of the oldest numbers are reaching into spots formerly devoid of machines of any kind. Coinmen are trying to solidify their businesses so that they will not be held up for want of locations when the new machines come onto the market.

Also noticeable, many claim, is the new blood rushing into the business. Some of these are returned service men, honorably discharged. Others are former war workers who see the hand writing on the wall and are desirous of getting into a business for themselves.

The result is that small routes of 25 to 45 machines are getting better prices than ever before in the history of this business. This is just about the size of route that the average new man can safely handle until he develops a better understanding of operating, these sellers claim. Many of these new men are going to be found with routes of 100 machines and more even before post-war production gets under way, they predict.

Another reason why many of the men are now buying equipment, some claim, are the announcements which have just come from certain government agencies that electrical appliances manufacturers have been allowed to return to some domestic manufacture. For example, over two million electric irons have just been allowed to be produced. These men therefore claim this means the materials situation is easing up somewhat.

All this has the trade excited. Everyone suddenly realizes that without locations in which to place machines, the post-war era won't mean a thing to coinmen. These men are grabbing whatever they can get in used equipment to cover as many locations as they possibly can in the belief that when the new equipment does appear they can either sell off routes of machines that don't prove profitable and retain those locations which do prove profitable.

This has created the buying spree. The effect is spreading thruout the country. Many who feel that they want to get into wholesaling are especially interested in getting locations covered. They plan to use these as their first sales inducements to new blood at very good prices.

Routes of music machines lead all route sales at this time. Figures being quoted are fabulous. Small routes are getting prices unheard of in this industry. Larger routes are also being purchased tho many of these are being split up. In some cases routes are bought and equipment pulled which leaves territory wide open for the average coinman. All this tends to greater buying so that even these empty spots will be filled and covered by someone in the territory.

BAD MACHINE SHIPMENTS MUST BE ELIMINATED

NEW YORK—The scathing story in the Oct. 24 issue of The Cash Box, bringing into the open the very serious condition existing today brought about by the shipping of bad machines, and pointing the way towards the elimination of this practice, resulted in the receipt of many signed pledges and complimentary letters.

The large majority of companies in the trade have never shipped machines other than represented, but the few who do, put the entire industry under a dark cloud, and those many firms who have spent many years and a large amount of money to build up the finest reputations suffer to the extent that buyers are wary of all.

The open publicity will do much to slow up this nefarious practice, but to completely eliminate it for all time is a matter for the trade to accomplish, and this can be done

thru active participation of all in a Coin Machines Better Business Bureau as suggested in many previous articles published in The Cash Box.

STRICT LUMBER CONTROLS EASED BY WPB

WASHINGTON, D. C.—In order to avert the closing of small lumber mills thru its strict rules, WPB announced that it had relaxed these regulations permitting the sale of low grades of lumber and all hardwoods for general sale.

The provisions provide for a freer flow of these woods, and permits small mills to make sales on orders without priority rating or Government certificate, to consumers as well as distributors, although such transactions may not interfere with the filling of certified orders.

CASH REBATE CONTRACTS START WITH NEXT ISSUE

NEW YORK — Beginning with the November 7, 1944 issue The Cash Box issues its first cash rebate advertising contracts. Rebates will be as high as 10% cash returned at the end of the contract year for 52 consecutive ads of \$15 or more each issue.

Those interested in arranging for a contract for advertising, as the post-war era gets under way, should contact either the New York or Chicago offices of The Cash Box for full details.

FIRST COMMERCIAL AIR FREIGHT FROM N. Y.

NEW YORK, N. Y.—The first commercial air freight flight in history left La Guardia Field Sunday, Oct. 15, inaugurating a regularly scheduled freight departure from New York City by the American Airlines. The itinerary includes deliveries to 42 other cities in the United States, in most instances providing overnight delivery.

This company announced that this freight tariff is the first in the industry, with rates as low as 30 cents a ton-mile as against air express rates of better than 80 cents.

Although most of the plane's 6000 pound capacity was taken up by war priority freight, space was found for shipments of a half dozen luxury

items, with drop off points at Los Angeles, Seattle, Sacramento, San Francisco, Portland, Dallas, Memphis and Milwaukee.

James A. Wooten, cargo traffic manager for the line, pointed out that these special shipments could be made to fill needs across the continent, and that the slight extra cost of air shipments would be more than compensated for by the speed of delivery.

The Cash Box, in an editorial in the Oct 10, 1944 issue pointed out the many advantages the coin machines industry will enjoy when it is in a position to take advantage of this commercial air freight shipping.

HARRY JACOBS FOR MORE MODERNISM

MILWAUKEE—Harry Jacobs, Jr., of United Coin Machine Co., this city, isn't satisfied with the fact that his firm have just moved into larger and more elaborate quarters and are today considered among the nation's most outstanding distribts.

Harry reports, "We're going to modernize all over again. I've just returned from a trip and some of the ideas that were given to me make me believe that this industry has only just started. Therefore, as soon as labor and materials become easier to obtain we're going to once again get men to work here in our showrooms and offices and believe me if the men who have seen these quarters think that they are beautiful and modern — just wait until they see what we are going to make them look like.

"Business is going good and we are all very optimistic. We feel that this little city of ours is going to prove itself one of the real and progressive leaders in this industry. We are also seeking whatever suggestions the trade may have in regard to what they believe a distributors' offices and showrooms should look like and

are willing to adopt any suggestions we believe worthwhile."

MAC CHURVIS BACK FROM U. S. NAVY

CHICAGO — Mac Churvis, well known to all this trade, has just received his "honorable discharge" from Uncle Sam's Navy and is back in action again at Al Sebring's Bell Products Company in this city.

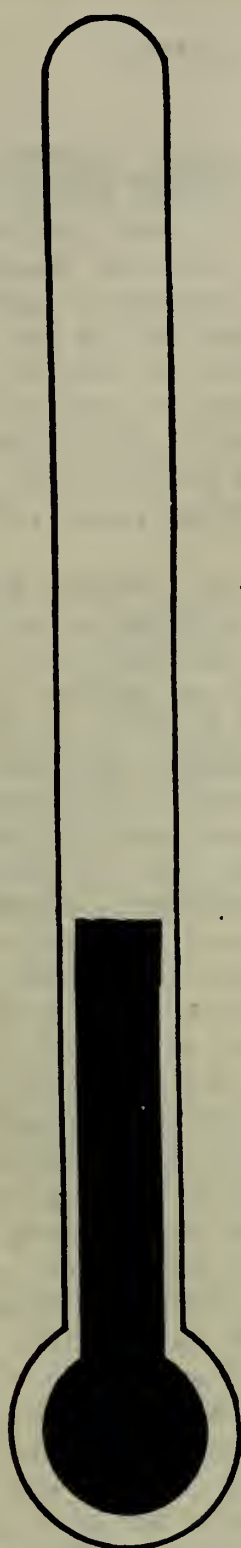

Mac writes, "It sure was great to see The Cash Box after all this time. I remember when you discussed your plans for The Cash Box with me, right before I entered the U.S. Navy. Now that I have just read your Fall

Special issue — take it from me — your idea has grown just like the Navy has grown — and there is no doubt in my mind that you have just really started to grow."

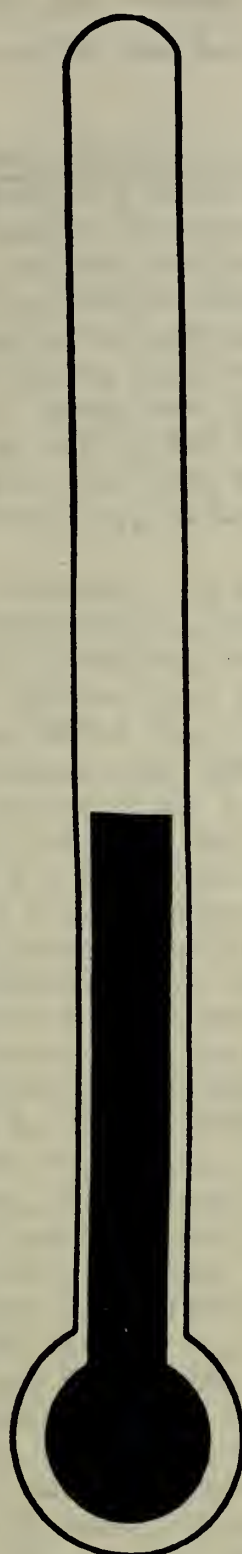

Old timers who will remember Mac for his work in behalf of this trade will find him in action over at Bell Products Company and ready to talk business — in a good old salty Navy way.

BUSINESS INDEX OF THE WEEK

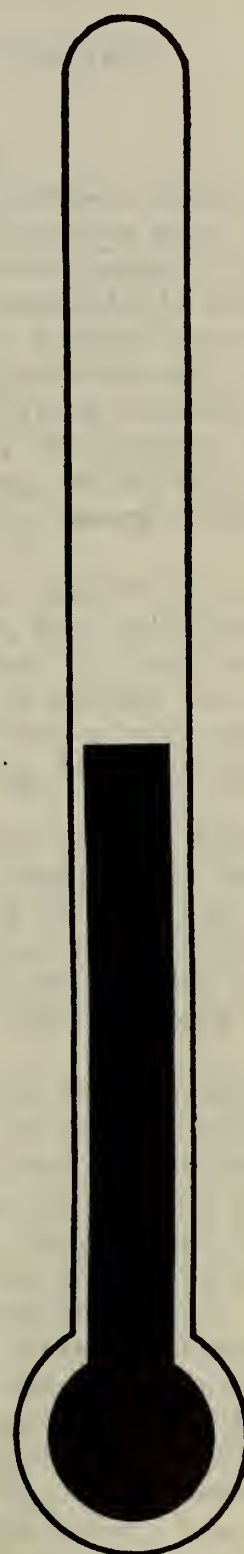

A 1944 Copyrighted Feature of: The Cash Box, 381 Fourth Avenue, New York (16)

LAST MONTH

LAST WEEK

THIS WEEK

Collections continue to rise, on the average, thruout the nation. Some reports this past week showed rises as high as 35%. Most of the largest of these were in the amusement machines field with music machines a very, very close second. Scales and even merchandise machines showed rising averages — tho as yet the effect of little or no merchandise for merchandisers is being felt very seriously by all in this division of the field. The cigarette machines men are most concerned since reports just released indicate that the cigarette shortage will continue on for sometime to come.

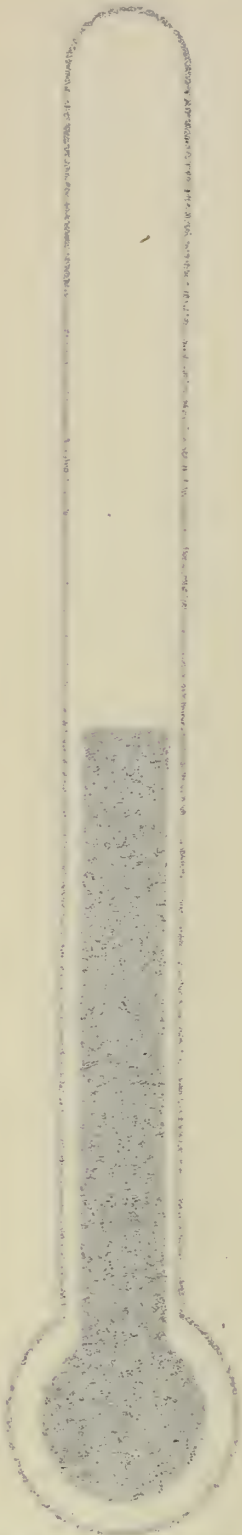

On an average, tho, estimates are that collections for all types of equipment have risen better than 18% this past week. This is the highest collection average rise yet made this year.

Also interesting is to note that buying has also sharply increased as collections have started to go up. With averages going higher — the belief is also that buying, too, will continue to increase in proportion and that the trade is entering into one of the most prosperous eras in its history.

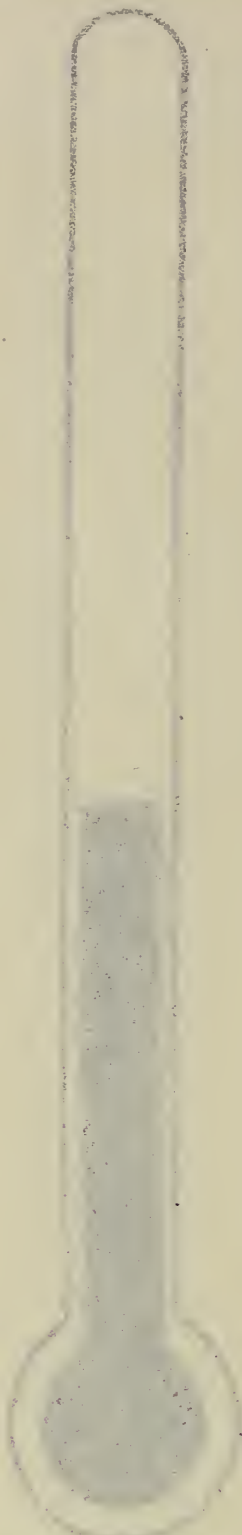

The fall-winter season of '44-'45 it is now believed will prove one of the best for this industry. Many are even of the belief that this season will prove better than any other in years. These men claim that tho the fall-winter season of '43-'44 was one of the greatest, it slumped toward the start, whereas this season seems to be going ahead every day.

ARCADE OWNERS' ASSOCIATION HOLD FIRST MEETING OF 1944-45 SEASON

The Arcade Owners' Association held its first meeting of the 1944-45 season Thursday evening, Oct. 19, with the attendance hitting a new high, including many out of town arcade owners. The main topic of the evening was devoted to creation of a method of informing arcade owners thruout the entire country of the association's accomplishments, and to the problem of increasing out-of-town membership. A committee of five were appointed to study ways and means to gain this objective, and they will report to the membership at the next meeting. Among the visitors from outlying sections were: HARRY ROSENTHAL, Pittsburgh, Pa.; AL DAVIS, New Brunswick, N.J.; ED RAVREBY, Boston, Mass.; AL RODSTEIN, Philadelphia, Pa.; JOE ASH, Philadelphia, Pa.; MEYER WOLF, Atlantic City, N.J.; McKIM SMITH, Atlantic City, N.J.; and IRV MORRIS, Newark, N.J.

MEYER MARCUS, The Marke pp Co., Cleveland, O. making immediate deliveries on new metal covers for wall boxes, and wants music...CHARLES LICHTMAN, New York City was the victim of a theft involving 10 music machines, and warns the trade to look for these machines noting whether the serial numbers have been mutilated or rubbed out...FRED IVERSON and JOHNNIE BILOTTA, Eastern Sales Co., Rochester, N.Y. run a sale offering pins, 1-balls, arcade equip. and music...JACK SIMON, Central Mfg. Co., Chicago, Ill. rebuilding and refinishing slots, and rebuilds slot cabinets.

Other visitors to New York City this past week included MORRIS HANKIN, Hankin Music Co., Atlanta, Ga.; JACK KAUFMAN, C & L Amusement Machine Co., Miami, Fla.; and Mr. & Mrs. HAROLD LIEBERMAN, Acme Novelty Co., Minneapolis, Minn...ART HEIMKE, St. Louis Novelty Co., St. Louis, Mo. selling arcade equip...IZ ALPERT, Twin Ports Sales Co., Duluth, Minn. rebuilding slots, and wants slot castings and cabinets...JOHN L. JONES, Jones Sales Co., Hickory, N.C. offers 1-balls and slots...CARL TRIPPE, Ideal Novelty Co., St. Louis, Mo. selling 1-balls and consoles.

GIL KITT, Empire Coin Machine Exchange, Chicago, Ill. national distributor for Marvel's Baseball, 5-ball revamp...J. R. "PETE" PIETERS, King Pin Games Co., Kalamazoo, Mich. offers a special in slots, arcade equip., pins, consoles, and music...S. SCHWARTZ, S & W Coin Machine Exchange, Detroit, Mich. wants music and skée balls...J. What Are A.B.T.'s Plans for "V" DAY?

Many of our friends in the coin machine industry have inquired about our postwar plans. We are now primarily interested in helping our sons and yours, to return home as soon as possible. A.B.T. is proud of the part it is playing in reaching the inevitable goal of peace.

When the war ends, all of us must reconvert our production. Our designers have planned so that A.B.T. will be one step ahead of the others and thereby maintain our place as a leader in the coin machine industry. Our plans will be completed well in advance of the armistice. Your plans should include A.B.T. products. If we can assist you in your postwar planning, call on us.

120 WEST 42nd STREET

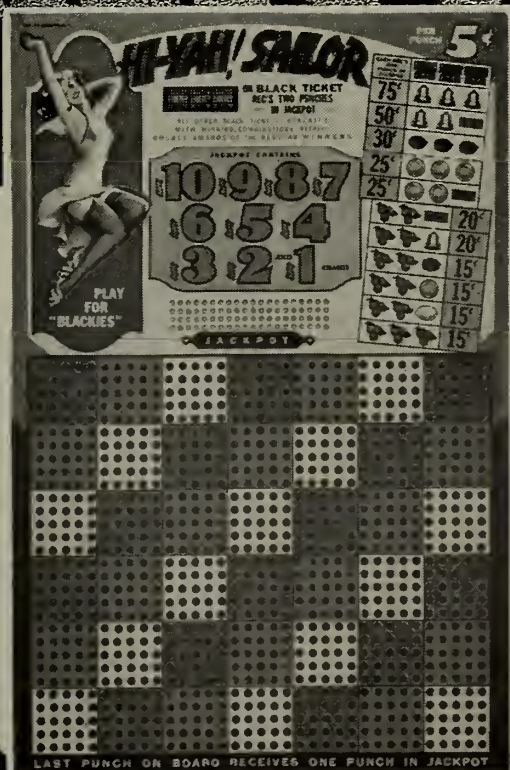

NEW YORK, N.Y.

The Trend is "Blackie"

HI-YAH SAILOR

Flashy, eye-appealing and studded with sensational payouts comprise this member of the "Blackie" family. "Jackpot" awards containing \$1.00 to \$10.00 inclusive with "Liberty Bar" on "Blackie" ticket with winning combinations receive double awards of the regular winners.

Takes in 1050 sales at 5 cents \$5250
Pays out \$2637
Total Average Profit \$2613

BUOYANT

Another "Blackie" sensation. Liberty Bar on "Blackie" ticket receives two punches in "Jackpot" containing \$1.00 to \$10.00, also tickets printed "Advance." "BuoyPot" contains two \$25.00 and \$5.00 awards. Consolations are very interesting. Stock up on this profitable member of the "Blackie" family.

Takes in 1260 sales at 5c --- \$6300
Pays out \$3108
Total Average Profit \$3192

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1990: 1991) and the fact that the *in situ* and *ex situ* populations are not genetically differentiated (Hollander et al. 1990) suggest that the *in situ* population is not a remnant of a formerly larger population. The *in situ* population is therefore likely to be a new population that has arisen recently, possibly as a result of a founder effect.

YU. I. GOLIN

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED
EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN
DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN
LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR
PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR
PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR
PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active
in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

The image shows a document page with a grid of small, dark, rectangular marks arranged in rows and columns. The marks are irregular and appear to be ink or carbon impressions. The page is heavily degraded, with significant noise and artifacts, including large black areas and white speckles. The overall appearance is that of a very poor quality scan of a document.

1. The first part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.

2. The second part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.

3. The third part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.

4. The fourth part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.

5. The fifth part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.

6. The sixth part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.

7. The seventh part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.

8. The eighth part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.

9. The ninth part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.

10. The tenth part of the document is a list of names and addresses, which are arranged in a columnar format. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into several columns, with the names in the first column and the addresses in the subsequent columns.
